

BM Data Collection Software:
data can be imported into
EXCEL, WORD, and other files to PC

Characteristic

Application Modes

Features

- High Precision Loadcell
- External Calibration
- Real-time Temperature Compensation Mechanism
- Adjustable leveling feet
- Seven Level Anti-Shock Adjustable Function
- Anti-Static Metal and All Aluminium Casting Housing
- VATN Backlit LCD display
- Default and auto-lock present working mode
- Weighing Response time adjustable
- Date, time and temperature settings
- Built-in RS232 port for computer and printer connection
- % Percentage weighing
- Optional with BM Data collection software (collect scale data to PC)
- Optional with under hook
- Printer Option: TP-205

Application Modes

- Percentage Weighing
- Density determination
- Dynamic weighing function
- Parts counting mode
- Pricing mode function
- High-low weighing function
- Gross/Net/Tare weight weighing
- Peak holding function
- Accumulate function

General Specifications

- Units : g, kg, lb, ct (selectable)
- Display : Backlit LCD
- Power Supply : 12V DC adapter and rechargeable battery (optional)
- Housing : Robust metal construction
- Calibration : External calibration using weights

Print Format

ID : 1
Date : 02-17-25
Time : 16:53:41
CT : 150 pcs
UW : 1.00 g
WT : 150.00 g

Product Details

Model	Capacity	Readability	Pan Size (mm)	Weight (kg)	L x W x H (mm)
